

	Belt Dressing
Industrial Aerosols	DESCRIPTION: Liquid-aerosol spray, solvent odour.
	USED FOR: Dressing application for all V, flat and round belts (leather, rubber and fabric) on industrial, automotive, farm equipment, etc.
	SPECIAL BENEFITS: <ul style="list-style-type: none"> Easy to apply. Ready to use. Non flammable. Positive grip. Will not glaze or collect dirt. Increases power without gumming. Works equally well in wet outdoor conditions.
	DIRECTIONS: <ul style="list-style-type: none"> Point spray at inner surface of belt. Spray back and forth across inner working surface of belt, while the belt is running. On V belts, spray may be applied to the sheaves or directly on the belts. Apply a little at a time until surface is completely covered. Repeat as required to maintain full power.
	Package Size: (code) 12x1 Aerosols 650721
