

Instant Zinc Cold Galvanize	
Industrial Aerosols	DESCRIPTION: Liquid-aerosol spray, grey metallic, solvent odour.
	USED FOR: Providing a instant zinc, cold galvnizing coating on metal for rust and corrosion protection. TRB 513 is the equivalent to hot dip zinc galvanizing.
	SPECIAL BENEFITS: Easy to apply, ready to use. Highly resistant to salt corrosion and water. Electro-mechanical process of the film causes healing action, where surface is scratched or broken. Meets the following specifications: MIL-P-21035 MIL-P-26433 MIL-P-26915 MIL-P-46105
	DIRECTIONS: Shake can vigorously before use, until ball moves freely for one minute. Frequent agitation during use is important. Surface must be free of all loose rust, oil, grease, old paint. Spray no closer than 20-25 cm. Use a sweeping motion to spray. Surface should be touch dry in 5 minutes. Surface may be top coated or painted approximately 6 hours after drying. Several thin coats are better than one heavy coat. To prevent valve clogging, invert can and spray a few short bursts after each use.
