

	Battery Terminal Cleaner & Protector	
Industrial Aerosols	DESCRIPTION:	Liquid aerosol spray, typical odour.
	USED FOR:	<p>Cleaning and protecting battery terminals and to prevent the build up of corrosion while providing a residual corrosion inhibitor protection.</p> <p>TRB 527 is used on fleet cars, trucks, golf carts, fork lifts, construction and agricultural equipment.</p>
	SPECIAL BENEFITS:	<p>Easy to apply. Ready to use. Assures maximum battery performance. Permits proper current flow. Eliminates power leaks. Prevents damage to cable and terminals. Prolongs battery life.</p>
	DIRECTIONS:	<p>Shke can vigorously before use. Ensure cell covers are tightly closed. Spray on cables, clamp terminal brackets and over the entire battery surface. After a few minutes, flush of with water or clean off with a damp cloth. Apply a final light coat for long term protection. For severe conditions, repeat the above procedure as required.</p>
