

Metal Parts Protector							
Industrial Aerosols	<p>DESCRIPTION: Dark amber liquid, moderate solvent odour, aerosol format.</p> <p>USED FOR: TRB 537 Metal Parts Protector is a high quality, long lasting, durable rust and corrosion protective coating, designed for metal parts, equipment and machinery exposed to severe elements and or harsh conditions. It lays a dark rust proofing coating to metal substrates, that will not crack, chip nor peel. It is resistant to acids, alkalies, corrosive gases and fumes, water, moisture, salt spray and withstands both sub-zero and elevated temperatures. With its versatile nature, TRB 537 finds applications in protecting stationary equipment such as transformer and electrical bases, machinery, overseas shipping of parts, wire rope and cables, undercoatings for industrial vehicles such as forklifts, off road and all terrain vehicles, exterior storage of equipment during off season, etc.</p> <p>SPECIAL BENEFITS:</p> <p><u>Average film thickness / 5% salt spray - average hours to fail polished spray panels:</u></p> <table><tr><td>1.6 mls /100 microns</td><td>1500-5000 + hours</td></tr><tr><td>4 mls /100 microns</td><td>1500-5000 + hours</td></tr><tr><td>3 mls / 75 microns</td><td>1000-1500 + hours</td></tr></table> <p>DIRECTIONS:</p> <p><u>TRB 537 specs:</u></p> <ul style="list-style-type: none">MIL-C-0083933A (MR)MIL-C-16173D Grade 4Ford M-7-C-16AP.O.D.
